Readme/Explanation Section

- **Interactive Drum Machine: THE BAM PAD** (similar to octo-pad) Sketch with triggered sounds… model example below (Roland Octapad)

- **Drop down list** for different drum sets/sound samples… i.e. Rock kit, NeoSoul → var = drumKitSelect; drumKitSelect = createSelect(); drumKitSelect.position(10,10); drumKitSelect.option("");drumKitSelect.option("Rock Kit"); drumKitSelect.option("NeoSoul Kit");
- **Sounds Triggered** via mouse click on hit-zones/buttons/pad-areas
- **Arrays** used in mapping images and instructions

HOW TO USE:

1. Select your Drumset preset from top left drop down (note: no sounds will be triggerable until preset has been selected)
2. Click away on any of the 8 pads to trigger your sounds! (Simple, easy to use)
